

# PRINTED DECAL INSTALLATION

1

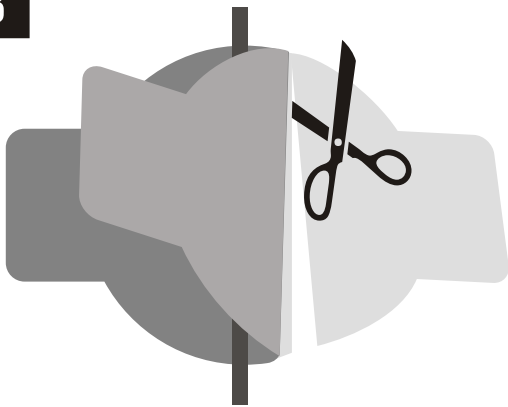

Place your decal and secure down the center with one piece of painters tape

2

Gently fold back one half of decal. **DO NOT CREASE.** Carefully pull release liner away from decal until you reach taped point

3

Use scissors to cut away half of release liner. **BE CAREFUL** not to cut into the decal.

4

Using a squeegee or other soft flat tool, flatten the sticky side onto your surface, starting from the tape and moving outwards from center.

5

Remove the painters tape. And repeat steps 2 and 3 with the remaining decal half.

6

Using a squeegee or other soft flat tool, flatten the sticky side onto your surface, starting from the tape and moving outwards from center.
