

Banner Care Instructions

1. Always roll banners with the image to the outside.
2. Keep banner clean by using warm soapy water. Do not use abrasives.
3. Do not roll too tightly. Leave at least a 4" diameter space in the center.
4. If the banner is to be hung in an area where wind will be blowing through it, make sure that it has wind slits. (i.e. not necessary if banner is hanging against a wall)
